

WEALTH CHOICE

FIXED INDEXED ANNUITY

▶ Maximize Guaranteed* Income

One of the key benefits of a United Life Insurance Company (United Life) fixed indexed annuity with optional Guaranteed Living Benefit Rider is the flexibility to maximize your guaranteed income. You have the power to choose when to start receiving income payments — either wait to take income or start it now — depending on which approach best aligns with your financial goals and circumstances. The checklist below can help you decide on the optimal timing for you.

Wait
to Take
or Start
Now?

Instructions

1. Read through each factor and consider your current situation and future expectations.
2. Check the box next to the statement that best applies to you or each factor on the following page.
3. Evaluate your decision with your financial professional:
 - If you have more checkmarks in **“wait to take income”** column: you may benefit from delaying income to maximize future payouts and growth.
 - If you have more checkmarks in **“start income now”** column: you may benefit from starting income now to meet immediate financial needs and ensure stability.
